

Deworming Day Review and Plan for Mop-Up Day

Deworming Day Review and Plan for Mop-Up Day

At the conclusion of National Deworming Day on the 10th Feb, under the Chairmanship of the Mission Director/State Nodal Officer a video conferencing call is to be organized with all district Civil Surgeons/CMHOs, partners.

Key points to be covered:

- Estimate coverage levels
- Instruct districts/ blocks with poor coverage to intensify efforts for Mop Up Day
- Take stock of any adverse events reported from the field
- Ensure reporting of adverse events in standard reporting formats
- Take stock of logistic and supply chain issues on NDD to prepare for MUD

Deworming Day Review and Plan for Mop-Up Day

- For districts with issues/perceived poor levels of coverage, State Nodal Officer to follow up with development partners and related departments and stakeholders working there
- State Nodal Officer to remind/ reinforce all districts for follow up on report collection process and submission of field monitoring forms
- Media handling for any adverse events:
 - One designated spokesperson at state and district level to handle media
 - Before any media contact prepare for key messages, well framed answers to progress from Deworming Day and Mop up day
 - Stay calm and composed while interacting with media and convey message that adverse events are not likely to be due to deworming medicine

After NDD

For teachers, AWW and ASHA

- After NDD, teacher will prepare a list of children who have missed deworming due to absence from school or sickness
- Follow up with parents of these children to inform them to send the children to be present on Mop-up day for taking the Albendazole tablet
- After NDD, AWW will prepare a list of children who have missed deworming due to absence or sickness and share the list with ASHA
- ASHA will follow up through home visits to inform parents of these children and mobilize them to be present on Mop-Up day for taking the Albendazole tablet
